

FCC Classmate 3 - 2015

New Slim Education Laptop Huge space for learning

ULTRADURABLE FEATURES

THIN AND LIGHT

Starting at 1.30 kg, FCC-CM15 is the lightest Clamshell of C-series family. And at just 29.2 mm thin, it is very comfortable to be carried and handled by children, as well as to be placed inside a trolley or a backpack.

THE BEST PERFORMANCE

Thanks to the power efficiency and improved performance per clock, Intel® Dual Core Bay Trail 1.4GHz (TBD) handles multiple computing and studying tasks at once;

The passive cooling pad prevents FCC-CM15 from over heating. Due to the low power consumption, FCC-CM15 also stands out for providing an incredibly silent experience.

New FCC-CM15

The passive cooling pad prevents FCC-CM15 from over heating. Due to the low power consumption, FCC-CM15 also stands out for providing an incredibly silent experience.

With a design based on round edges, with no sharp corners, increasing the protection of children from all angles. FCC-CM15 was built to be drop resistant and water proof.
